

## CONTENT

### PLENARY SESSION

<b>Research and Development at IMST Department</b> .....	1
G. Benga	
<b>New lignocelluloses composites for automotive interior components</b> .....	9
I. Curtu, O.M.Terciu, M.D. Stanciu	
<b>High performance thermal sprayed coatings</b> .....	15
A.V. Serban, A.Raduta, D. Utu	
<b>Nanotechnology – based decontaminant materials: a review</b> .....	23
D. Panagiotaras	

### PART 1.

#### ADVANCED MATERIALS AND TECHNOLOGIES

<b>Mechanical properties regarding to aluminum foam-filled tubes</b> .....	31
M. Caranfil, V. Geaman, D. Luca Motoc	
<b>Casting techniques applied for obtaining aluminum foams with closed pores</b> .....	35
M. Caranfil, V. Geaman, M.A. Pop, V. Jiman, D.Luca Motoc	
<b>Textile inserts into sandwich panels made of glued veneers. Influence on curvature radius</b> .....	39
C. Cosoreanu, D.Lica	
<b>Tensile test behavior of sintered steels produced by „gascabusint” method</b> .....	43
M.C. Criveanu, M.C. Mangra	
<b>The characterization of steel layer obtained by nitro-carburizing in nitrogen and propane controlled atmosphere</b> .....	47
S. Dubovan, T. Popescu, V. Buharu	
<b>Studies regarding the influence of the amount of carbon on the resilience of steels obtained by carburizing of iron powder in methane gas atmosphere</b> .....	51
C. Ghermec, O. Ghermec	
<b>Influence of two steps sintering parameters on tribological behaviour of nanostructured HAP/Ti biocomposites</b> .....	55
O. Gingu, G. Benga, I. Pascu, G. Sima, A. Harabor, A. Olei	
<b>Research regarding the mechanical milling process of barium ferrite type M</b> .....	59
V.H. Nicoara, C. Nicolicescu, I. Stefan	
<b>Thermal behavior of mechanically alloyed powders based on tungsten carbide</b> .....	63
C. Nicolicescu, I. Stefan, V.H. Nicoara, S. Radu	

<b>The influence of the two step sintering technique on the wear resistance for some HAP/Ti biocomposites</b> .....	67
A. Olei, O. Gingu, I. Stefan	
<b>Mechanisms of slag deposits accumulation on combustion systems areas</b> .....	71
A. Popa, S.M. Sofronie	
<b>Studies regarding the carbon distribution and hardness of iron parts sintered in vacuum and carburized</b> .....	75
T. Popescu, C. Ghermec, O. Ghermec	
<b>The influence of the powders loading voltage upon the micro-hardness and ohmic resistance of the layers deposited by metallization</b> .....	79
I.C.Roata, R. Iovanas	
<b>Laser-diode as power source for polymer bonding</b> .....	83
I.D. Savu, S.V. Savu	
<b>New Romanian developments in the field of the quality of the welding processes</b> .....	87
I.D. Savu, I. Domuta, S.V.Savu	
<b>Influence of the reinforcing elements on the wear behavior of Al(SiC+Graphite) composites elaborated by classic sintering route</b> .....	91
G. Sima, O. Gingu	
<b>Researches on formation of BaFe<sub>2</sub>O<sub>4</sub> from ceramic powders obtained by ball milling</b> .....	95
I.Stefan, C. Nicolicescu, A. Olei, M. Trotea	
<b>Study regarding the front wing aerodynamics of a race car</b> .....	99
D. Tutunea, G. Gherghina	

## PART 2.

### ENVIRONMENT ENGINEERING FOR SUSTAINABLE DEVELOPMENT

<b>Research on replacement of pollutant alloying elements with ecological elements in sintered alloy steels</b> .....	103
I.G. Bucse, O. Ghermec, M. Ciobanu	
<b>Studies on the evolution of air quality in Drobeta Turnu Severin</b> .....	107
M. Ciobanu, I.G. Bucse, St. Radu	
<b>The ecological rehabilitation of the ash layers from the central area of Oltenia</b> .....	111
C. Cotiga, M. Ciobanu, I.G. Bucse	
<b>Technical report on the wastewater treatment plant (WWTP) at Smithfield slaughterhouse processing S.R.L.Timișoara</b> .....	115
M.C. Criveanu	

<b>Study of noise pollution produced by rail traffic.....</b>	<b>119</b>
G. Demian, M. Demian	
<b>Overview of non-polluting technologies used to produce electrical energy.....</b>	<b>123</b>
M. Demian, G. Demian	
<b>Studies and researches over the soot deposits on a DI diesel engine.....</b>	<b>127</b>
A.M. Dima	
<b>The behavior of a 4 stroke SI engine during laboratory experiments with regard over pollutant emissions.....</b>	<b>131</b>
A.M. Dima	
<b>The monitoring of sound pollution in Craiova city.....</b>	<b>135</b>
E. Gavrilescu, S.M. Popescu, D.E. Ciupeanu-Calugaru	
<b>Study regarding the use of solar energy in Mehedinți county.....</b>	<b>139</b>
O. Ghermec, C. Ghermec	
<b>Aspects about using multi-criteria decision models for making decisions regarding environmental quality and protection.....</b>	<b>143</b>
L. Grecu	
<b>Studies on the increasing of the environmental performance when obtaining high resistance parts through PM.....</b>	<b>147</b>
T. Popescu, O. Ghermec, C. Ghermec	
<b>Possibilities of obtaining metallic powders from recycled chip .....</b>	<b>151</b>
St. Radu, C. Nicolocescu, M. Ciobanu	
<b>Enhancing the environmental impact of solid (un)conventional fuels' combustion by conducting a viable kinetic analysis.....</b>	<b>155</b>
A.Rotaru	
<b>Considerations above combustion of solid fuels indoor.....</b>	<b>159</b>
S.M. Sofronie, A. Popa	

**PART 3  
MODELING AND SIMULATION**

<b>Stochastic Petri net in flexible manufacturing system modelling .....</b>	<b>163</b>
D. Coman	
<b>Theoretical approach and FEM analysis on mixed hardwood composite panels .....</b>	<b>167</b>
C. Cosereanu, I. Curtu	

<b>FEM applied to analyse a chair resistance when used various species of wood compared with oak depreciated wood.....</b>	173
C. Cosereanu, D. Lica, I. Curtu	
<b>Control of tentacle structure based on energetic relations .....</b>	179
M. Florescu	
<b>Experimental method for modal parameters identification .....</b>	183
D. Ilincioiu, C.M. Miritoiu	
<b>Parameter case simulation for mobile robot kinematics .....</b>	189
A. Ionescu, D. Coman	
<b>Micromechanics based predictions of hybrid CF/GF polymer composites dynamic effective properties.....</b>	193
D. Luca Motoc, V.Geaman	
<b>Green composites' CTE property prediction based on micromechanical modelling.....</b>	197
D.Luca Motoc, V.Geaman	
<b>Simulation of urban traffic noise reduction in Brasov city using noise barriers .....</b>	201
M.D. Stanciu, I. Curtu, I. Timar	

**PART 4  
INLAND NAVIGATION AND LOGISTICS**

<b>Strategy towards harmonization of inland waterways transport education and training</b>	205
G. Benga, M. Ghiba	
<b>The Danube Strategy and the Slovak Republic .....</b>	209
A David, J. Sosedova	
<b>Intermodal transport studies on the Romanian sector of the Danube.....</b>	213
L. Dubovan, T. Popescu	
<b>Improving risk control parameters through selective collection and quantified parameters efficient communication.....</b>	217
M. Ghiba	
<b>Some identification possibilities on hull derivative investigation .....</b>	221
D. G. György	
<b>Transient parameter sensibility of semi empirical motion equations of inland vessels....</b>	225
C.L. Hargitai	
<b>Transnational cooperation network among the IWT education and training organizations.....</b>	229
S. Savu, D. Savu
