

CONTENTS

<i>CPC-Based Reactive Compensation of Linear Loads Supplied with Asymmetrical Nonsinusoidal Voltage</i> - Leszek S. Czarnecki.....	1
<i>The Rotary Magnetostrictive Motor: a Promising Solution for Low Power Actuators</i> - Alexandru Dalea, Mircea Ignat, Sorin Deleanu, Mihai Iordache, Neculai Galan.....	11
<i>Synthesis of the Battery Charging System of a Stand-Alone Electric Locomotive</i> - Alexandru Bitoleanu, Mihaela Popescu, Vlad Constantin Suru, Mihail Rădulescu.....	21
<i>How to Design a Passive Damped LCL Coupling Filter for an Active DC-Traction Substation –</i> Mihaela Popescu, Alexandru Bitoleanu, Mircea Dobriceanu, Florin Alexandru Teodorescu.....	29
<i>Analytical Study, Numerical Modelling and Experimental Results of the Forces which Act in the Magnetic Liquid Placed between the Poles of an Electromagnet</i> - Daniela Vesa.....	37
<i>Application of Direct Optimization Method by Zooms to Improve the Performances of AC Electromagnet</i> - Alin-Iulian Dolan.....	45
<i>Controller for BLDC Motors</i> - Florin Ravigan, Laurențiu Alboteanu, Marius Dumitriu, Ionț Zglimbea.....	51
<i>An Improved Numerical Model of Heat Transfer Coefficient Corresponding to a Through Connector</i> - Constantin Florin Ocoleanu, Ioan C. Popa.....	57
<i>Automatic Sorting and Handling Station Actuated by Pneumatic Drive</i> - Laurențiu Alboteanu, Gheorghe Manolea, Florin Ravigan.....	63
<i>The Resistive Tubular Heater - Mathematical and Simulation Model</i> - Mitică Iustinian Neacă.....	71
<i>Simulation of Idle Running Operating Characteristics for Low-Power Asynchronous Motors</i> - Raluca-Cristina (Presură) Nicolae.....	81
<i>Disturbance Analysis for Power Systems Based on LabVIEW Real-Time and Reconfigurable FPGA Modules Using Wavelet Transform</i> - Marcel Nicola, Claudiu-Ionel Nicola, Sebastian Popescu, Dumitru Sacerdoțianu, Marian Duță.....	87
<i>Single/Three-Phase Transformer with Variable Frequency for Electric Locomotives –</i> Berzan Vladimir, Ermurachi Iurie, Ivanov Sergiu.....	96
<i>Continuous Monitoring and SCADA Integration of the Sag of Overhead Electricity Transmission Cables Based on the Measurement of their Slope</i> - Dumitru Sacerdoțianu, Marcel Nicola, Claudiu-Ionel Nicola, Iulian Hurezeanu, Florica Lăzărescu.....	104
<i>Implementation of Virtual Instrumentation for Testing of Induction Motors</i> - Gheorghe-Eugen Subțirelu..	112
<i>Analysis of Losses in Brushless Direct Current Motors and Their Influence upon Operation Characteristics</i> - Monica-Adela Enache, Aurel Campeanu, Ion Vlad, Sorin Enache.....	121
<i>Current Aspects in the Conception and Performance of Dispatching Manoeuvres in the National Electric Power Transmission System</i> - Silvia-Maria Digă, Nicolae Digă, Cristian Bratu, Adelaida-Mihaela Duinea.....	127

<i>Diagnosis with Analytic Model of a Rectifier for Faults of the Rectifier Control</i> - Virginia Ivanov, Maria Brojboiu, Sergiu Ivanov.....	134
<i>Modeling Three-Phase Short-Circuits for Radial Distribution Systems</i> - Horia Bălan, Mircea Ion Buzdugan, Liviu Neamț.....	140
<i>Graphical User Interface to Extrapolate the Ideal Covering Factor of the Polar Step</i> - Gabriela Dana Petropol Șerb , Ion Petropol Șerb.....	147
<i>Power line Compromising Emanations Analysis</i> - Vlad Butnaru, Bogdan Trip, Andrei Macovei, Georgiana Roșu, Alexandru Boitan, Simona Halunga.....	153
<i>Indirect Current Control Algorithm Implementation and Validation, for Active Filtering Using Constant Switching Frequency Hysteresis Controllers</i> - Mihaita Lincă, Constantin Vlad Suru, Cristina Alexandra Preda.....	160
<i>Analysis of the Phaseportrait for the Lü Dynamical System in a Particular Case</i> - Adela Ionescu, Florian Munteanu.....	170
