

Table of contents:

Foreword.....	7
Unit 1: An Introduction into Engineering.....	9
Unit 2 : Fields of Engineering.....	15
Unit 3: Describing Modern Engines Grammar Focus- Present Tenses.....	19
Unit 4: Engineering Inventions that Have Shaped the World Grammar Focus- Past Tenses	29
Unit 5: Future Trends Grammar Focus- Expressing the Future	38
Unit 6: Unit 6: Materials and Technologies.....	43
Unit 7: Choosing the Right Material for the Job Grammar Focus- Active and Passive Voice.....	47
Unit 8: Electricity.....	53
Unit 9: Crunching Numbers.....	58
Unit 10: Measurements and Conversions.....	62
Unit 11: It's a Question of Geometry.....	67
Unit 12: Necessity is the Mother of Invention Grammar Focus- The Comparison of Adjectives and Adverbs.....	77
Unit 13: IFs in Engineering Grammar Focus: Conditional (If) Clauses in English.....	82
Unit 14: Infinitives and Verb- ING Forms in Engineering Grammar Focus: To-infinitive or -ING form?.....	93

Unit 15: Technology: Functions and Applications.....	99
Unit 16: Modal Verbs In Engineering Grammar Focus: What Are Modal Verbs?.....	102
Unit 17: Safety Measures and Precautions.....	108
Unit 18: Technologies and Components.....	114
Unit 19: Components and Assemblies.....	117
Unit 20: Engineering Enemies.....	120
Unit 21: A Good Job in Engineering.....	124
Unit 22: Cover Letters in Engineering.....	132
Annexes	139
References.....	155
